Grantee Spotlight - Ascend Wilderness Experience

Grants of all sizes make a difference in our communities and the Community Foundation is proud to help in the facilitation of those gifts. Recently, Ascend Wilderness Experience reported that a satellite phone which was purchased with a grant from The McConnell Fund made all the difference in carrying out their work of taking youth backpacking in the Trinity Alps. The equipment was used to call for medical help when a program participant experienced a medical emergency. Additionally, the device came in handy when unexpected weather caused a change in itinerary that previously may not have been communicated. Grants of all sizes – funded

through a variety of fund holders and charitable partners – keep our friends and neighbors strong, safe, and thriving!

A Hearty Welcome to New Funds

Over 130 funds are growing to positively impact our communities in many ways. What do Shasta County high school freshmen, a nonprofit organization looking for sustainability, and a Boles Fire recovery story have in common? These are all recently established funds that we welcome into our family, click the links to learn more:

- [Reach Higher Scholarship Fund](#)
- [Siskiyou Land Trust Endowment Fund](#)
- [Weed Community Center Challenge Campaign Fund](#)

A new option for donors is to select the ESG Portfolio for their fund investments...[Read more](#)

Save the Date!

Mark your calendars for the Tuesday after Thanksgiving, this year on **November 27th**, for North State Giving Tuesday. This online giving campaign will benefit north state nonprofit organizations at www.northstategives.org.

Mandatory Nonprofit Orientation Workshop registration information coming soon!
